

## VACANCY FOR THE LSU HEALTH SCIENCES CENTER - NEW ORLEANS

### FINANCIALS APPLICATION SUPPORT ANALYST

**LSU Health Science Center** has an opening for a Financials Application Support Analyst. Under the general direction of the Project Coordinator, the Analyst provides functional support for the PeopleSoft Financials system with emphasis on the Purchasing module. The Analyst provides necessary expertise in the functional aspects of maintaining and upgrading the software system. The Analyst provides assistance to user communities and serves as part of the Functional Help Desk for PeopleSoft Financials. The Support Analyst provides leadership for the module and coordinates user activities during upgrades, testing, maintenance, and modifications. Additionally, the Support Analyst provides guidance on LSUHSC policies and procedures that relate to PeopleSoft Financials. The ideal candidate will possess excellent analytical and decision-making, interpersonal, organizational, problem solving, and time management skills while maintaining attention to detail. The PeopleSoft Financials Support Analyst may be domiciled in the New Orleans, Baton Rouge or Shreveport area. This position is full time and may require working some weekend or nights. The ability to travel to campuses throughout the state is required.

#### Qualifications:

- Bachelor's Degree in Business, Public Admin., Hospital Admin., Human Resources, Information Technology or related field.
- Applicants should possess 2 years' experience with implementation upgrade, and/or production support of Oracle/PeopleSoft or similar ERP system.

Qualified applicants should submit a resume and cover letter to LSUHSC New Orleans at <https://lsuh.sc/jobs/?id=1901>
