

How to Generate the Outage Report

Navigation:

- Inventory
- Manage Inventory
- Reports
- Outage Report

The first time you will need to create your Run Control ID you will need to click on Add A New Value and name your Run Control. Once created you can click on Find an Existing Value and

The screenshot shows a software interface for generating an Outage Report. On the left, a 'Menu' pane lists various report options, with 'Outage Report' selected. The main area is titled 'Outage Report' and contains two tabs: 'Find an Existing Value' and 'Add a New Value'. Below the tabs, there is a text input field labeled 'Run Control ID:' containing the value 'Outage_Report', and an 'Add' button. Below this, there is a 'Run Control ID:' label followed by the text 'Outage_Report', and two links: 'Report Manager' and 'Process Monitor', along with a 'Run' button. At the bottom, a large rectangular area contains the text '*Inventory Business Unit' followed by a dropdown menu showing 'MCWHS'.
