

HCSD VACANCY ANNOUNCEMENT

IT Informatics Project Coordinator

Issue Date: 12/04/2018
Closing Date: 12/11/2018
Salary Range: \$70,000 - \$140,000
Location: LSU Health Care Services Division
Informatics Program
New Orleans, LA

The LSU Health Care Services Division (HCSD) is accepting resumes for the position of IT Project Coordinator located in New Orleans, LA, in the Medical Informatics Program. Duties: This is a professional position primarily responsible for the coordination of clinical and technical project management activities and functions related to medical informatics, data quality and care quality redesign for HCSD. This advanced level position works on healthcare IT software development, support and project coordination. Position also provides consultation and planning of applications or systems, project and resources management, clinical information systems, and electronic medical records to meet HCSD initiatives and may serve as a lead team member over designated projects. Some travel may be required.

Qualifications: Baccalaureate degree in Computer Science, Information Science or other related technical or informatics field and three (3) years of professional-level experience in healthcare information technology; or applied medical informatics in a health care environment.

Desired: Knowledge of Transactional SQL, REST APIs (i.e. FHIR), J2EE, JavaScript, XML, Object Oriented Programming (.NET, VB, C Sharp), CSS3 and HTML5.

Send resumes to Human Resources Administration, LSU HCSD, P.O. Box 91308, Baton Rouge, LA 70821-1308; or fax to 225-354-4851 or email to LSUhotline@lsuhsc.edu.
